BERLINER GLAS at MEDTEC Europe: Optical System Solutions for Medical Applications

As an OEM supplier of high quality opto-mechanical assemblies and systems, BERLINER GLAS GROUP presents the whole range of optical system solutions for medical applications at MEDTEC Europe. Among others, we present an extremely bright customer label LED cold light source. Our service portfolio includes opto-mechanical assemblies for LASIK applications, systems for ophthalmology, 3-chip assemblies, cameras and measuring systems based on stripe projection and confocal measurement. Currently we supply market leaders in the ophthalmology, dental medicine, endoscopy and dermatology.

With our team of developers, we transform complex questions into production-ready products that we produce reliably in our cleanrooms in Germany and Switzerland.

Vist us: MEDTEC Europe – Hall 4 booth 384

BERLINER GLAS GROUP ist one of the leading suppliers of optical and mechanical engineering, key-components, assemblies and systems for the entire light-using industry. The company has about 940 employees in Germany, Switzerland, the US and China.
