

# PRESS RELEASE

11 March 2014  
Berlin, Germany

## Berliner Glas at laser optics 2014 in Berlin

The Berliner Glas Group will exhibit at the laser optics 2014 in Berlin. The focus will be on high-precision assemblies and systems that the company designs and manufactures for its customers of light-using industries.

For the customers Berliner Glas is a reliable, competent long-term partner along the entire process chain – from the idea to series production. With its understanding of optical systems and optical production technology the Berliner Glas Group develops, produces and integrates optics, mechanics and electronics into innovative system solutions and thus provides a significant contribution to the competitiveness of its customers.

A visit of the Berliner Glas exhibition booth is not only valuable for customers. Students and graduates will also benefit as they will have the possibility to get to know Berliner Glas as potential employer. The Human Resources Team will be pleased to inform about interesting jobs as career entry, topics for bachelor or master theses as well as about trainings or apprenticeships at Berliner Glas.

Berliner Glas employees can also be met at the panel discussion „My first year as junior engineer in the optical industry“ (18 March 2014, 11:30 am - 12:30 pm in hall 13) where they will report on their daily work and challenges.

Laser optics is Germany's top platform for state-of-the art technologies and applications of both optical technologies and microsystems technology. It will take place from 18 until 20 March 2014 in Berlin. With its combination of trade fair, top-level congresses and expert's forum the laser optics offers ideal conditions for direct customer contacts, personal networking and an intensive technology transfer.

The exhibition booth of Berliner Glas (Nr. 201) will be located in hall 12.

### About Berliner Glas:

The BERLINER GLAS GROUP ([www.berlinerglas.com](http://www.berlinerglas.com)) is one of the leading European providers of optical key components, assemblies and systems as well as high-quality refined technical glass. With more than 1,100 employees, BERLINER GLAS develops, produces and integrates optics, mechanics and electronics into innovative system solutions for its customers. As OEM partners from prototyping to volume production, the BERLINER GLAS GROUP companies serve innovative customers in various market segments - semiconductor industry, medical technology, metrology, laser and space technology, analytics, defense and the display industry.
