New company presentation of the Berliner Glas Group is online

What can we do to contribute to your success? – This was one of the key questions that we had in mind when we updated the company presentation of the Berliner Glas Group. This new presentation gives several answers to this question and puts the focus on customer benefits.

In addition, the presentation gives an overview of the services and core competencies of the Berliner Glas Group, the locations as well as the history and outlines the markets the company is active in.

All interested persons are welcome to download the presentation as a PDF document. Please click [here](#).

About Berliner Glas:

The Berliner Glas Group – with more than 1,100 employees – is one of the leading European providers of optical key components, assemblies and systems as well as high-quality refined technical glass. With its understanding of optical systems and optical production technology the Berliner Glas Group develops, produces and integrates optics, mechanics and electronics into innovative system solutions and thus provides a significant contribution to the process chain of its customers.

As OEM partners from prototyping to volume production, the BERLINER GLAS GROUP companies serve innovative customers in various market segments – semiconductor industry, medical technology, metrology, laser and space technology, analytics, defense and the display industry.
