

# PRESS RELEASE

08 January 2018  
Berlin, Germany/Heerbrugg, Switzerland

## Optical key components and systems for light-using industries Berliner Glas Group at Photonics West 2018

The Berliner Glas Group develops and manufactures innovative system solutions with optical, mechanical, and electronic components for its customers.

At Photonics West, the group of companies is presenting its entire line of solutions for various market segments. Key components such as aspheres and large cylinder lenses will be shown in addition to beam splitters and lenses as well as light source modules and cameras.

Meet the Berliner Glas and SwissOptic experts at booth # 1141 in the South Hall and discuss your ideas with them.

The option to arrange a meeting at the exhibition can be found here: <https://www.berlinerglas.com/meet-us-photonics-west-2018> or <https://www.swissoptic.com/photonics-west-2018>.

The Berliner Glas Group will also exhibit at BiOS – booth # 8556 in the West Hall – and will present solutions specifically addressing medical technology and the life science markets. For more information please click here: <https://www.berlinerglas.com/meet-us-spie-bios>.

### **About the Berliner Glas Group:**

The BERLINER GLAS GROUP ([www.berlinerglasgroup.com](http://www.berlinerglasgroup.com)) is one of the world's leading providers of optical key components, assemblies and systems, high-quality refined technical glass as well as glass touch assemblies. With more than 1,200 employees, the BERLINER GLAS GROUP develops, produces and integrates optics, mechanics and electronics into innovative system solutions for its customers. As OEM partners from concept to volume production, the BERLINER GLAS GROUP companies serve innovative customers in various market segments – metrology, semiconductor industry, laser and space technology, medical technology and the display industry.
